## POSTGAME QUOTES

### **Question: How do you get your guys ready on a short turnaround?**

**FSU Head Coach Hamilton:** "I don't think we will have any problem with that. The guys enjoy being in a tournament like this. We're learning and evaluating the pluses and the minuses. I think we we're a bit lethargic on the offensive end, not as sharp as we would like to be. Any time we touched the ball it felt like we were second guessing ourselves. But they shot 32%, we were active and aggressive. I think we are where everyone else is this time of year, just trying to get a bit better."

### **Question: What are challenges LSU present?**

**Coach Hamilton:** "They're very deep. They are as long and athletic as any team we will play, they are your typical SEC type team. They have athletic ball handlers and they're well coached; which is why they are a top 25 ranked team. They are the type of team that we will be playing once we get into the ACC."

### **Question: How are you going to prepare for tomorrow?**

**Christ Koumadje:** "It's a mindset type of thing. The coaches always tell us how we have 5 games in 10 days so it's like a back to back. We have experience from last year but it's a mindset."

### **Question: You shot one 3, is that a decision making thing?**

**Terance Mann:** "Yeah that's just on me, I take the ones I feel are going to go in. I feel like I've done a good job of that this year."
